# Natural Resources from **HAYBUSTER**<sup>®</sup>

Prevent Erosion • Protect Seedlings and Soil

## **PICK IT! Rock-Eze Rock Picker**

- Rock picker/windrower combo.
- Clears a swath 10 feet wide.
- Picks rocks as small as 2 inches, as large as 15 inches.
- Rock wheel separates rocks from dirt.
- 84-inch dump height.
- Easy hookup and operation.

## **SEED IT! 107 All-Purpose Drill**

- Delivers quick cover, fast germination.
- 10-foot width.
- Precise seed placement and metering.
- Seeds native grasses.
- Ideal for any construction, landscaping or reclamation project requiring grass seeding.

## **MULCH IT! 2544 BALEBUSTER**

- Places mulch precisely on erosion trouble spots.
- Self-loading, one-person operation.
- Optional Straw Cannon shoots mulch up to 100 feet.
- Perfect for ditches and medians, oil field and mine reclamation.

**1-701-252-4601**

# FOR TIDAL WETLANDS PRESERVATION & RESTORATION

**Waterman** / NEKTON

## SRT

SELF-REGULATING TIDEGATE  
CAN PRODUCE THESE BENEFITS:

- RESTORES TIDAL FLUSHING OF MARSHES WITHOUT FLOODING OF UPLAND PROPERTY BEHIND DIKES AND LEVEES
- RESTORATION OF ESTUARINE PLANTS, FISH, SHELLFISH, WATERFOWL AND WILDLIFE
  - REDUCES MOSQUITO BREEDING THROUGH NATURAL CONTROL
- HELPS ELIMINATE MARSH FIRES (PEAT AND PHRAGMITES OR TALL REED GRASS)
- RESCOURING OF MARSH CHANNELS WHICH IMPROVES UPLAND DRAINAGE
  - REDUCES SHEET FLOODING OF THE MARSH
- DEEPENING OF DOWNSTREAM CHANNELS RESULTING IN IMPROVED NAVIGATION
  - PROVEN BY 20 YEARS OF EXPERIENCE

Drainage Area Cutoff from Natural Tidal Action by Dikes with Standard Tidegate for Storm Tide Protection

Wetland Under Restoration Subject to Natural Tidal Action but Protected from Storm Tides by Waterman/Nekton SRT Installed in the Original Dike.

# Books that cherish the earth

## The Essential Aldo Leopold

*Quotations and Commentaries*  
 Edited by Curt Meine and  
 Richard L. Knight

A comprehensive collection of quotations from Leopold's extensive and diverse writings, selected and organized to capture the richness and depth of the North American conservation movement.

Cloth \$27.95

## Prairie Time

*The Leopold Reserve Revisited*  
 John Ross and  
 Beth Ross

"A delightful book that evokes thoughtful appreciation for the prairie, and more broadly for the natural world, carrying the message about the need for humans to see themselves as a closely interrelated and dependent part of that world."—Margaret Bogue, author of *Around the Shores of Lake Michigan*  
 Cloth \$34.95

## The River of the Mother of God

*and Other Essays by Aldo Leopold*  
 Ed. by Susan L. Flader and J. Baird Callicott  
 Paper \$19.95

## Recovering the Prairie

Edited by Robert F. Sayre

"Prairie enthusiasts will be delighted to read how diverse and interesting the human meanings of the prairie have been. *Recovering the Prairie* is attractive, accessible, and eloquent."—Donald Worster, author of *Nature's Economy*  
 Cloth \$37.95

## Small Creatures and Ordinary Places

*Essays on Nature*  
 Allen M. Young  
 Illustrations by  
 Judith Huf  
 The beauty and value of hornets, bats, katydids, mice, cicadas, and other tiny dwellers in our own backyards are revealed. Young, a renowned expert on butterflies and cicadas of the American tropics, records in these charming essays his keen observations of the natural world.  
 Cloth \$50.00 Paper \$19.95

## Aquatic and Wetland Plants of Northeastern North America

A REVISED AND ENLARGED EDITION  
 Volume 1: Pteridophytes, Gymnosperms and Angiosperms: Dicotyledons  
 Volume 2: Angiosperms: Monocotyledons  
 Garrett E. Crow and  
 C. Barre Hellquist

By far the best and most comprehensive manual and illustrated guide.  
 Cloth \$90.00 each volume

## Fishing the Great Lakes

*An Environmental History, 1783–1933*

Margaret  
 Beattie Bogue

A sweeping history of the once-abundant fisheries of the great "inland seas" that lie between the United States and Canada. Margaret Bogue documents here how overfishing, pollution, political squabbling, poor public policies, and human greed combined to damage the fish populations even before the voracious sea lamprey decimated the lake trout population in the 1940s.  
 Paper \$21.95

## The Young John Muir

*An Environmental Biography*  
 Steven J. Holmes

"A landmark in the scholarship about John Muir and the developmental power of wilderness."—John C. Elder, editor of *American Nature Writers*  
 Paper \$22.95

## Walking with Muir across Yosemite

Thomas R. Vale  
 and  
 Geraldine R. Vale

"A celebration of the nature experience. This book expresses Muir's emotional attachment to America's oldest national park."—Lary M. Dilsaver, University of Southern Alabama, Mobile  
 Paper \$15.95

## Turn to Tennessee for Provocative Reading!

### Out Under the Sky of the Great Smokies

A PERSONAL JOURNAL

Harvey Broome

With a New Foreword by Michael Frome

"Harvey Broome was an early, indefatigable friend of the Smokies whose book combines an eloquent interpretation of the seasons of life they nurture with the urgent message that their conservation remains perpetually relevant."—Wilma Dykeman, Tennessee State Historian

328 pages, illustrations, ISBN 1-57233-113-5, \$15.95 paper

### Now Available from Tennessee

The following books were recently obtained by the University of Tennessee Press from the McDonald & Woodward Publishing Company. Orders for these titles may now be placed with UT Press.

### Mammals of Great Smoky Mountains National Park

Donald W. Linzey

Written in accessible language and illustrated throughout with color photographs, this book brings together the most current information available about the mammals of the Smokies. Included for each animal is succinct information about its size, external appearance, behavior, numbers, habitat, and ecology.

150 pages, illustrations, ISBN 0-939923-48-3, \$14.95 paper

### The Mammals of Virginia

Donald W. Linzey

In this handsome volume, Donald W. Linzey offers a comprehensive overview of the state of knowledge concerning the mammals of Virginia and the literature about them that has emerged over the past four hundred years.

480 pages, illustrations, ISBN 0-939923-36-X, \$59.95

### Virginia's Endangered Species

Coordinated by Karen Terwilliger

An essential reference for anyone involved in protecting the environment, this book identifies and describes Virginia's endangered species and suggests ways that they might be managed to ensure their survival.

680 pages, illustrations, ISBN 0-939923-16-5, \$69.95 cloth

ISBN 0-939923-17-3, \$39.95 paper

### A Guide to Endangered and Threatened Species in Virginia

Coordinated by Karen Terwilliger and John R. Tate

Condensed from *Virginia's Endangered Species*, this concise guide identifies the most vulnerable plants and animals found in Virginia and includes one-page summaries of the biology and ecology of the endangered and threatened species.

230 pages, illustrations, ISBN 0-939923-31-9, \$14.95 paper

Shipping & handling: \$4.00 for first book; \$1.00 for each additional book.

# A Practical Guide to Prairie Reconstruction

BY CARL KURTZ

A Bur Oak Original

Twenty-five years and many acres after planting his first patch of prairie flowers, naturalist and photographer Carl Kurtz is recognized by many as one of the deans of the great prairie revival.

In *A Practical Guide to Prairie Reconstruction*, Kurtz outlines the procedures and problems involved in reintroducing tallgrass prairie to landscapes large and small, giving a formula for success for all but the most extreme conditions. In chapters on seed selection and harvest, site selection, soil preparation, seeding, postplanting mowing, burning, and growth and development, the book provides a step-by-step guide to creating a diverse and well-established prairie community.

With Kurtz's own beautiful and informative color photographs illustrating the text, this handsome guide will prove indispensable whether you are restoring your back yard or your back forty.

CARL KURTZ is a professional writer, teacher, naturalist, and photographer. He and his wife and partner, Linda, live on a 172-acre family farm in central Iowa that is one of the few prairie seed sources in the Midwest.

Published for the Leopold Center for Sustainable Agriculture, the Iowa Chapter of The Nature Conservancy, and the Iowa Natural Heritage Foundation

70 pages, 24 color photos, 2 maps.  
7 1/4 x 10 1/4 inches  
\$12.95 paper original 0-87745-745-X

- Step-by-step guide to prairie reconstruction from site selection through burning

- 24 color photographs

- Conservation guidelines from The Nature Conservancy

- Reference list of Midwest seed sources and services and books on prairie plant reconstruction and identification

# The Philosophy and Practice of Wildlife Management, 3rd Ed.

by *Frederick F. Gilbert & Donald G. Dodds*

3rd Ed. 2001 376 pp. ISBN 1-57524-051-3 \$34.50

In this major revision the authors have remained true to the original purpose of the book—to be exemplary, not prescriptive, and targeted rather than exhaustive in the material covered. History, systems, and examples from both the United States and Canada give this text an approach that is truly North American. Newly added chapters deal with Native American land claims and rights to wildlife resources and the effects of parasites and diseases on wildlife populations. Also included are sections on endangered species, species management, environmental impact assessment, socioeconomic issues, management approaches, legislation, and jurisdiction. The discussion of wildlife problems associated with less developed countries and information from various developed jurisdictions also provide an introduction to international wildlife concerns. Wildlife management is often a political task today with socioeconomic and environmental underpinnings. The text addresses difficult issues with facts and case studies useful to professionals as well as to students preparing to enter natural resource professions.

## Sustaining the Forests of the Pacific Coast

Forging Truces in the War in the Woods  
*Debra J. Salazar & Donald K. Alper, eds.*

This collection is unique in examining forest policy in the context of a binational region, exploring how two political systems have treated their forests.

new release!

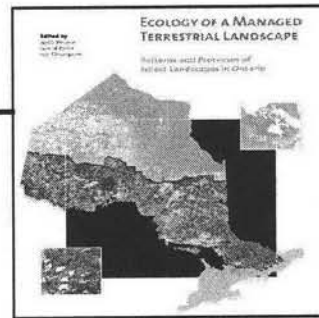

## Biodiversity and Democracy

Rethinking Society and Nature  
*Paul M. Wood*

now in pbk!

Paul Wood argues that the extinction of the world's species, genes, and ecosystems can be traced back to how we think about both biodiversity and democratic societies.

## Ecology of a Managed Terrestrial Landscape

Patterns and Processes of Forest Landscapes in Ontario  
*Ajith Perera, Dave Euler, & Ian Thompson*

now in pbk!

A detailed look at the "big picture" of ecological patterns and processes through a case study of the vast managed forest region of Ontario.

## In Search of Sustainability

British Columbia Forest Policy in the 1990's  
*Cashore, et. al.*

new release!

Examines the extraordinary burst of activism in BC forest policy during the 1990's and asks, "how much change and why?"

## ZENTNER ZENTNER

### Land Planning and Restoration

Success of environmental restoration projects is measured by their performance over time. That success is a direct reflection of the skill of the restoration team—and its ability to solve complex ecological and regulatory issues.

Over the last decade, Zentner and Zentner has managed over 500 restoration projects.

Our services include:

- Wetland Delineations
- Restoration and Mitigation Planning
- Biological Assessments
- Endangered Species: Section 7 and 2081 Approvals
- Regulatory Planning and Permitting
- Construction and Post Construction Monitoring

PREVEGETATED  
COIR

**The fiber that backs our prevegetated coir is science.**

With bioengineered products from Bitterroot Restoration, you get biodegradable coconut husk vegetated with native plants and grasses. You get a choice of three products tailored to your site. And you get a material specifically engineered for easy installation, rapid establishment and erosion prevention in high-stress areas like stream banks and lakeshores. In other words, you get science woven right in.
