

Ecological Restoration

Volume 33 • Number 3 | September 2015

Ecological Restoration

The Original Restoration Publication

ASLA Communications Award Winner

Ecological Restoration is honored to accept the ASLA Communications Honor Award, as a forum that showcases design work in partnership with ecology and restoration.

The journal has a new feature, *Design Approaches to Ecological Restoration*. This section showcases a landscape architect's project design with significant ecological components, followed by a critique from ecologists. The dialogue asks: Does the design meet its stated ecological goals? In what ways could the landscape architect improve ecological services consistent with the design intent? How can similar future projects better advance ecological functions? This new forum provides a vital meeting ground for the both professions.

ZENTNER ZENTNER *Land Planning and Restoration*

Success of environmental restoration projects is measured by their performance over time. That success is a direct reflection of the skill of the restoration team—and its ability to solve complex ecological and regulatory issues. Over the last decade, Zentner and Zentner has managed over 500 restoration projects.

Our services include:

- Wetland Delineations
- Restoration and Mitigation Planning
- Biological Assessments
- Endangered Species: Section 7 and 2081 Approvals
- Regulatory Planning and Permitting
- Construction and Post Construction Monitoring

*Ecological
restoration
for a healthy
relationship
between nature
& culture.*

SER is dedicated to promoting ecological restoration as a means of sustaining the diversity of life on Earth and re-establishing an ecologically healthy relationship between nature and culture.

The Society provides great opportunities for its members to network and to advance the science, practice and policy of ecological restoration.
