Ecological Restoration

The Original Restoration Publication

JOIN OUR COMMUNITY OF REVIEWERS!

Ecological Restoration is a peer-reviewed journal and every submission receives a careful evaluation from knowledgeable scientists or practitioners of restoration. As our field grows and the number of submissions rises, we have an urgent need for more manuscript reviewers. We particularly need specialists in grassland ecology, coastal ecology, and soil processes, but welcome new partners from any area of restoration.

If you would like to be considered as a reviewer for *Ecological Restoration*, please complete our quick survey at bit.ly/erreview.

Submit your research to
Native Plants Journal

The editors seek articles on the planting and growing of North American native plants for conservation, restoration, reforestation, landscaping, highway corridors, and related uses.

Visit <http://bit.ly/npjsubs> for full guidelines and to submit your work.
