Restoration & Management Notes is published twice yearly by the University of Wisconsin Press. © by the Board of Regents of the University of Wisconsin System. No part of this publication may be reproduced without the written consent of the Editor. Requests for reprints of an article or illustration should be made directly to the Journal Division, UW Press.

Contributions are welcome and should be sent to the Editor, UW Arboretum, 1207 Seminole Highway, Madison, WI 53711 (608) 262-9591, e-mail: rmn@macc.wisc.edu. Instructions to contributors are printed at the back of each issue.

Authorization to photocopy items for personal use, or the internal or personal use of specific clients, is granted by the Board of Regents of the University of Wisconsin System for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$1.50 per copy is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923. R&MN is indexed in AGRICOLA.

Restoration & Management Notes serves the Society for Ecological Restoration, an international organization of restorationists and managers with its principal office at the University of Wisconsin-Madison Arboretum, 1207 Seminole Highway, Madison, WI 53711 (608) 262-9547.

Postmaster: Send address changes to Restoration & Management Notes, Journal Division, 114 N. Murray St., Madison, WI 53715.

Subscriptions: \$22 individuals (please pre-pay); \$60 institutions. Foreign subscribers please add \$8; \$11 if air-mail delivery is desired. All correspondence regarding subscriptions, advertising, and related matters should be sent to: Journal Division, 114 N. Murray St., Madison, WI 53715, U.S.A.

Members of the Society for Ecological Restoration receive R&MN as a privilege of membership. Membership rates are \$49 (individual); \$34 (student); \$89 (business); and \$89 (library/government).

Advertising: Call (608) 262-5839 for current rates.

Cover: Inner-city youths participate in salt-marsh restoration being carried out at Old Place Creek on the Hudson-Raritan Estuary in New York City. The project, funded by a damages claim recovered from Exxon following an oil-spill in 1990, is one of dozens that make the New York Metropolitan area, site of this year's SER conference, a national restoration hotspot. For an overview of restoration efforts in the area see the story by Marc Matsil and Michael Feller. *Photo by Marc A. Matsil*
