

# Ecological Restoration

Volume 18 Number 4 Winter 2000

## Editorials

Ten Thousand Thoreaus 215

*William R. Jordan III*

Restoring for Natural Authenticity 216

*Andre F. Clewell*

Facing problems of rising sea levels, coastal land subsidence, and the increasing cost of maintaining kilometers of protective sea walls, the United Kingdom Countryside Commission, in league with the United States National Park Service, has undertaken restoration experiments and participatory planning sessions that they hope will preserve the natural and cultural amenities of the Blackwater Estuary, which is located along the southeastern coast of England. The article by David Yozzo and his colleagues begins on page 234.
