## LANDSCAPE JOURNAL

Founded: 1981

Editors: Darrel Morrison / Arnold Alanen

. . . explores a variety of topics related to the design, planning, and management of the land. LJ is dedicated to the dissemination of academic research, scholarly investigation, and technical information of interest to practitioners, academicians, and students of landscape architecture. Typical subject areas include: visual quality assessment, human behavior and the environment, historic and cultural landscape preservation and management, landscape history, planting design, vegetation management, landscape restoration and reclamation, land information systems, and landscape-related energy concerns.
