- Restoring Artifacts as a Metaphor for Restoring Ecosystems: A Hands-on Exercise for Teaching Restoration Ecology 126
Jeremy T. Lundholm and Douglas W. Larson

University of Guelph restoration ecology student, Alison Myatt, with her restored violin. Ms. Myatt is one of several dozen University of Guelph students who have restored an artifact in order to better understand the physical limitations, psychological experiences, and ethical questions that arise when undertaking an ecological restoration project. While professors, Jeremy Lundholm and Douglas Larson, admit that the metaphor isn't perfect, they have observed that students find this exercise very engaging and extremely useful. Their report begins on page 126.
