## ABSTRACTS

Grasslands	151	Traditional & Local Knowledge	156
Woodlands	152	Tools & Technology	156
Wetlands	152	Management & Monitoring	156
Lakes, Rivers & Streams	152	Urban Restoration	157
Coastal Communities	153	Collaboration & Participation	157
Other Communities	153	Frontiers	158
Propagation & Introduction	154	Planning & Policy	158
Control of Pest Species	154	Issues & Perspectives	159
Wildlife Habitat	155	Ethics	160

## BOOK REVIEWS

Restoring Natural Capital: Science, Business, and Practice <i>J. Aronson, Suzanne J. Milton and James N. Blignaut, reviewed by David Lamb</i>	161
Habitat Fragmentation and Landscape Change: An Ecological and Conservation Synthesis <i>David B. Lindenmayer and Joern Fischer, reviewed by John A. Bissonette</i>	162
Voices from the Forest: Integrating Indigenous Knowledge into Sustainable Upland Farming <i>Malcolm Cairns, reviewed by Dennis Martinez</i>	164
The Law and Policy of Ecosystem Services <i>J.B. Ruhl, Steven E. Kraft and Christopher L. Lant, reviewed by Robert Costanza</i>	168

## MEETINGS 173

Rattlesnake Master (*Eryngium yuccifolium*) was one of several prairie species observed by Stephen Packard and Linda Masters in a study comparing raked with unraked interseeded plots in an Illinois prairie restoration. See page 113.
