

# Ecological Restoration

Volume 27, Number 3

September 2009

<b>University of Wisconsin Arboretum</b>	235
Practicing Ecological Restoration: Climate Change in Context <i>Mirill Ingram</i>	
<b>Society for Ecological Restoration International</b>	238
Restoration in a Changing Climate <i>Jim Harris</i>	
<b>Observation</b>	240
Restoration Geographies <i>David G. Havlick and Martin W. Doyle</i>	
<b>Perspective</b>	244
Guidelines for Reference Model Preparation <i>Andre Clewell</i>	
<b>RESTORATION NOTES</b>	
Obituary for Flomaton: One Less Virgin Longleaf Stand (Alabama) <i>John S. Kush</i>	247
Participatory Planning for Outcomes-Based Wetlands Restoration (Minnesota) <i>Elizabeth P. Carlson</i>	249
Converting Pasture Land to Native-Plant-Dominated Grassland: A Case Study (Montana) <i>Monica L. Pokorny and Jane M. Mangold</i>	250
Genetic Considerations in Ecological Restoration: An Annotated Bibliography <i>Anna W. Strong and Kathryn L. Kennedy</i>	253
Native American Burial Mounds: Living Landscapes at the University of Wisconsin-Madison Arboretum <i>Fawn L. YoungBear-Tibbets</i>	254
A GIS Analysis of Climate Change and Snowpack on Columbia Basin Tribal Lands <i>David Graves</i>	256
Restoration in the Face of Climate Change: A Case Study from the Dorset Heaths <i>Anita Diaz, Iain Green and Sally Keith</i>	257
Atlases of Tree and Bird Species Habitats for Current and Future Climates <i>Anantha Prasad, Louis Iverson, Stephen Matthews and Matt Peters</i>	260
Tribal Salmon Restoration and Climate Change in the Pacific Northwest <i>Laura Gephart</i>	263
Is Nut Cold Tolerance a Limitation to the Restoration of American Chestnut in the Northeastern United States? <i>Paul G. Schaberg, Kendra M. Gurney, Benjamin R. Janes, Joshua M. Halman and Gary J. Hawley</i>	266
<b>ARTICLES</b>	
Ecology and Conservation of Purple Milkweed <i>Thomas D. Brock</i>	269
Wetland Cover Types and Plant Community Changes in Response to Cattail-Control Activities in the Palo Verde Marsh, Costa Rica <i>Florencia A. Trama, Federico L. Rizo-Patrón, Anjali Kumar, Eugenio González, Daniel Somma and Michael B. McCoy C.</i>	278

Planting Trials in Northern Arizona Ponderosa Pine Forests <i>Scott R. Abella and Judith D. Springer</i>	290
Broadcast Seeding as a Potential Tool to Reestablish Native Species in Degraded Dry Forest Ecosystems in Hawaii <i>Samuel Brooks, Susan Cordell and Lyman Perry</i>	300
Ecological and Cultural Significance of Burning Beargrass Habitat on the Olympic Peninsula, Washington <i>Daniela Joy Shebitz, Sarah Hayden Reichard and Peter W. Dunwiddie</i>	306

## **SPECIAL THEME: CLIMATE CHANGE AND ECOLOGICAL RESTORATION**

Rethinking Conservation Practice in Light of Climate Change <i>Peter W. Dunwiddie, Sonia A. Hall, Molly W. Ingraham, Jonathan D. Bakker, Kara S. Nelson, Roger Fuller and Elizabeth Gray</i>	320
Why Climate Change Makes Riparian Restoration More Important than Ever: Recommendations for Practice and Research <i>Nathaniel E. Seavy, Thomas Gardali, Gregory H. Golet, F. Thomas Griggs, Christine A. Howell, Rodd Kelsey, Stacy L. Small, Joshua H. Viers and James F. Weigand</i>	330
Neighborhood Levee <i>James Barilla</i>	339
Old Nature, New Nature: Global Warming and Restoration <i>Thomas B. Simpson</i>	343
Climate Change and Ecological Restoration at the University of Wisconsin-Madison Arboretum <i>Stephen B. Glass, Bradley M. Herrick and Christopher J. Kucharik</i>	345

## **ABSTRACTS**

Grasslands	350	Tools & Technology	356
Woodlands	351	Traditional & Local Knowledge	357
Wetlands	351	Climate Change	357
Lakes, Rivers & Streams	352	Management & Monitoring	358
Coastal Communities	353	Reclamation & Rehabilitation	359
Other Communities	354	Urban Restoration	359
Propagation & Introduction	354	Economics & Ecosystem Services	359
Control of Pest Species	355	Planning & Policy	359
Wildlife Habitat	355	Issues & Perspectives	361
Ecological Dynamics	356		

## **BOOK REVIEWS**

reWealth!: Stake Your Claim in the \$2 Trillion Redevelopment Trend That's Renewing the Planet <i>Storm Cunningham, reviewed by Kingsley Dixon</i>	361
The California Deserts: An Ecological Discovery <i>Bruce M. Pavlik, reviewed by Rachel D. Shaw</i>	362
The Wilderness Debate Rages On: Continuing the Great New Wilderness Debate <i>Michael P. Nelson and J. Baird Callicott, reviewed by Peter Landres</i>	364
