

Ecological Restoration

Volume 30, Number 2

June 2012

Editorial	91		
Ecological Beauty, In the Eye of the Beholder <i>Steven N. Handel</i>			
Editorial	93		
The New European Biodiversity Strategy: A Challenge to the Restoration Community! <i>Kris Decler</i>			
Editorial	95		
Connecting Communities for Ecological Restoration <i>Jim Hallett</i>			
Perspectives	96		
Investing in Natural Infrastructure: Restoring Watershed Resilience and Capacity in the Face of a Changing Climate <i>Matthew A. Wilson and Carolyn J. Browning</i>			
RESTORATION NOTES			
American Chestnut Establishment Techniques on Reclaimed Appalachian Surface Mined Lands <i>Christopher W. Fields-Johnson, James A. Burger, Daniel M. Evans, and Carl E. Zipper</i>	99		
Cold Hardiness in Wyoming Big Sagebrush Seedlings: Implications for Nursery Production and Outplanting <i>Kayla R. Herriman and Anthony S. Davis</i>	101		
Passive Restoration Potential of Riparian Areas Invaded by Giant Reed (<i>Arundo donax</i>) in Texas <i>Alexis Racelis, Amede Rubio, Thomas Vaughan, and John A. Goolsby</i>	103		
ARTICLES			
Biotic and Abiotic Effects of Remnant and Restoration Soils on the Performance of Tallgrass Prairie Species <i>Sandi Faber and John Markham</i>	106		
Feathering the Scene: The Effects of Ecological Restoration on Birds and the Role Birds Play in Evaluating Restoration Outcomes <i>Rubén Ortega-Álvarez and Roberto Lindig-Cisneros</i>	116		
Control of Hardwood Regeneration in Restored Carolina Bay Depression Wetlands <i>Lee J. Moser, Christopher D. Barton, and John I. Blake</i>	128		
Comparative Seed Heat Tolerances Among Native and Non-Indigenous Invasive Grassland Species <i>Erin Ruckman, Thomas Robinson, Kelly G. Lyons, and Susan Schwinning</i>	136		
ABSTRACTS			
Grasslands	143	Propagation & Introduction	145
Woodlands	143	Invasive & Pest Species	146
Wetlands	144	Wildlife Habitat Restoration	146
Lakes, Rivers & Streams	144	Ecological Design	147
Coastal & Marine Communities	145	Ecological Literacy	147
Other Communities	145	Climate Change	148

Monitoring & Adaptive Management	148	Endangered Species	149
Reclamation & Rehabilitation	148	Economics & Ecosystem Services	149
Urban Restoration	149	Planning & Policy	150

BOOK REVIEWS

Repeat Photography: Methods and Applications in the Natural Sciences <i>Robert H. Webb, Diane E. Boyer, and Raymond M. Turner (eds), reviewed by Dave Egan</i>	150
Landscapes and Hydrology of the Pre-Drainage Everglades <i>Christopher W. McVoy, Winifred Park Said, Jayanthya Obeysekera, Joel A. VanArman, and Thomas W. Dreschel, reviewed by Kevin Kotun</i>	151

Ecological Restoration is published quarterly by the University of Wisconsin Press. © by the Board of Regents of the University of Wisconsin System. No part of this publication may be reproduced without the written consent of the publisher, University of Wisconsin Press. Requests for permission to reprint an article or illustration should be made directly to UW Press, 1930 Monroe St, 3rd Floor, Madison, WI 53711-2059, permissions@uwpress.wisc.edu. <http://er.uwpress.org>

 Printed on 30% recycled text paper.

Contributions are welcome. Authors should upload their materials through *Ecological Restoration's* submission website, which can be found at <http://er.uwpress.org>. Submission guidelines can also be found at this web address.

Authorization to reproduce material from this journal, beyond one copy for personal use or that permitted by Sections 107 and 108 of U.S. Copyright Law, is granted for a fee. For fee schedule and payment information, contact www.copyright.com; The Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, 978/750-8400, Fax: 978/750-4470.

Ecological Restoration is indexed in Elsevier BIOBASE, AGRICOLA and in CSA's Ecology databases.

Ecological Restoration is affiliated with the Society for Ecological Restoration International, 285 W. 18th St. #1, Tucson, AZ 85701, 520/622-5485, <http://ser.org>. Members of the Society for Ecological Restoration International receive *Ecological Restoration* at a discounted rate. Please visit the UW Press Web site at www.wisc.edu/wisconsinpress/journals for more information.

Ecological Restoration was founded at the University of Wisconsin–Madison Arboretum.

Advertising: Call 608/263-0534 for current rates. Advertisements or references to products by brandname or trademark do not imply an endorsement by the editors or publishers of this journal.

Cover Feature: Over the past decade, birds have become increasingly important players in ecological restoration, either as target species for restoring habitat or as indicators of restoration outcomes. Ortega-Alvarez and Lindig-Cisneros examine in more detail the role of birds in the restoration process. Front cover photo is a slate-throated whitestart (*Myioborus miniatus*), and back cover photo is a striped sparrow (*Oriturus superciliosus*). Photographs by Ruben Ortega-Alvarez.

Ecological Restoration (ISSN 1522-4740, E-ISSN 1543-4079) is published quarterly by the University of Wisconsin Press, 1930 Monroe Street, 3rd Floor, Madison, WI 53711-2059. Periodicals postage paid at Madison WI and at additional mailing offices.

Subscriptions: Individual (please pre-pay), \$65 print and electronic, \$55 electronic only; \$42 students; \$150 businesses and nongovernmental organizations; libraries and government agencies, \$245 print and electronic, \$216 electronic only. Non-U.S. subscribers please add \$35 for foreign shipping. All correspondence regarding subscriptions, advertising, and related matters should be sent to Journals Division, 1930 Monroe Street, 3rd Floor, Madison, WI 53711-2059, USA; www.wisc.edu/wisconsinpress/journals. Members of the Society for Ecological Restoration International receive *Ecological Restoration* at a discounted rate. Please visit our Web site at www.wisc.edu/wisconsinpress/journals for more information.

POSTMASTER: Send address changes to *Ecological Restoration*, 1930 Monroe Street, 3rd Floor, Madison, WI 53711-2059.

Submissions

We welcome submissions to *Ecological Restoration* from any part of the world. Submissions should relate to the restoration of plants, animals, ecological communities, or landscapes. We understand ecological restoration to be a multidisciplinary and diverse effort and welcome manuscripts considering ecological, and social aspects of restoration, as well as political, economic, legal, and regulatory issues, and other subjects related to ecological restoration. Relevant topics also include techniques and tools for planning, site preparation, species introduction, undesired species control, and monitoring. Manuscripts dealing with plant or animal community composition or general ecology must relate the work explicitly to ecological restoration practice and theory. Similarly, material dealing with reclamation or rehabilitation in a broader sense, or with restoration for economic purposes—economic forestry, range management, waste disposal—must be connected to ecological restoration.

Material may be submitted for the following categories (listed as they are encountered in the journal):

- Letters to the Editor
- Observations/Editorials/Commentary/Policy Reports
- Restoration Notes (shorter items describing project updates, new collaborations, events, innovative technologies, preliminary or unusual findings, thought-provoking concepts, imaginative solutions, etc.)
- Full-length feature articles on ecological restoration theory, practice, and research (case studies, research reports, photo essays, experiments, etc.)
- Book, journal, web, or movie reviews

Authors of full-length articles or reviews should submit their material online at <http://er.msubmit.net>. Manuscripts must be submitted with a cover letter stating that the material has not been previously published, and has not been submitted elsewhere and will not be until a final decision has been reached by the editor. Questions about the online submission site, or general inquiries may be emailed to ERjournal@aesop.rutgers.edu.

Review and Editing Process

Manuscripts are reviewed externally by experts in the field. The process requires approximately four to six months. Restoration Notes are reviewed and edited in-house unless additional expertise is required to evaluate the submission.

Style

Practitioners of ecological restoration are both a core audience and source of contributions to *ER*. Contributors should use a straightforward style free of unnecessary technical terms and jargon. We prefer the active voice (for example, “We measured three trees” instead of “Three trees were measured”). Please see our Submission Guidelines at <http://er.uwpress.org> for more information.

Tables, Photos, and Illustrations

Table and Figure captions should include useful and detailed information, and should be independent of the text. Figures will be reproduced in black and white in the print version of *Ecological Restoration* (usually requiring higher contrast) and can be reproduced in color in the online version. We use color photos on the front and back covers of the journal and welcome submissions of eye-catching, informative, high-quality photographs.

Page Charges

Payment of \$50 per page is requested from authors with research grant or other institutional funds available to underwrite publication costs. Invoices will be sent after composition of pages. Authors with no grant or institutional funds do not need to pay publication costs. Ability to pay page charges is not a condition for acceptance of a manuscript.
