

Ecological Restoration

Volume 31, Number 2

June 2013

Editorial	117
Was van Gogh a Plant Ecologist? <i>Steven N. Handel</i>	
Special Issue	119
Status and Challenges of Grassland Restoration in the United States <i>Myla F.J. Aronson</i>	
Perspectives	
Can We Reconstruct Grasslands to Better Resist Invasion? <i>Kathryn A. Yurkonis</i>	120
The Potential of Restored Grasslands for Conserving Wildlife and Fuel Production <i>J. Curtis Burkhalter</i>	124
The Evolving Understanding of Grassland Restoration Seeding Protocols <i>Christopher F. Miller</i>	127
Native Seed Production for Grassland Restoration—A Grower’s Perspective <i>Gregory Kedzierski</i>	130
Spanning the Science-Practice Divide: Why Restoration Scientists Need to be More Involved with Practice <i>Sara Jo M. Dickens and Katharine N. Suding</i>	134
RESTORATION NOTES	
Can a Combination of Grazing, Herbicides, and Seeding Facilitate Succession in Old Fields? <i>Robert V. Taylor, Monica L. Pokorny, Jane Mangold and Nathan Rudd</i>	141
Reduced Establishment of Canada Thistle (<i>Cirsium arvense</i>) Using Functionally Similar Native Forbs <i>Jack Norland, Steven Fasching, Cami Dixon, Kristine Askerooth, Kyle Kelsey and Guojie Wang</i>	143
ARTICLES	
Strip-seeding for Grassland Restoration: Past Successes and Future Potential <i>Andrew P. Rayburn and Emilio A. Laca</i>	147
The Impact of Seed Mix Weight on Diversity and Species Composition in a Tallgrass Prairie Restoration Planting, Nachusa Grasslands, Illinois, USA <i>David Goldblum, Brian P. Glaves, Lesley S. Rigg and Bill Kleiman</i>	154
Influence of Richness and Seeding Density on Invasion Resistance in Experimental Tallgrass Prairie Restorations <i>Kristine T. Nemeč, Craig R. Allen, Christopher J. Helzer and David A. Wedin</i>	168
Invasion as a Function of Species Diversity: A Case Study of Two Restored North Dakota Grasslands <i>Andrew DiAllesandro, Breanna Paradeis Kobiela and Mario Biondini</i>	186
A Colonizing Species Has High Fitness on Soils with an Exotic Species Legacy When Conditioning Effects Are Mitigated <i>Erin K. Espeland</i>	195
Diversifying Agricultural Catchments by Incorporating Tallgrass Prairie Buffer Strips <i>Sarah M. Hirsh, Catherine M. Mabry, Lisa A. Schulte and Matt Liebman</i>	201

DESIGN APPROACHES TO ECOLOGICAL RESTORATION

Designing a Grassland Estate, Cultivating Biodiversity	212
<i>Myla F.J. Aronson and Steven N. Handel</i>	

ABSTRACTS

Grasslands	217	Ecological Literacy	223
Woodlands	220	Climate Change	224
Wetlands	221	Monitoring & Adaptive Management	225
Lakes, Rivers & Streams	222	Reclamation & Rehabilitation	225
Coastal & Marine Communities	222	Urban Restoration	226
Propagation & Introduction	222	Endangered Species	226
Invasive & Pest Species	223	Economics & Ecosystem Services	226
Wildlife Habitat Restoration	223	Planning & Policy	227

BOOK REVIEWS

Guide to Texas Grasses	228
<i>Robert B. Shaw, reviewed by Norma Fowler</i>	
Grasses of South Texas: A Guide to Identification and Value	228
<i>James H. Everitt, D. Lynn Drawe, Christopher R. Little and Robert I. Lonard, reviewed by Norma Fowler</i>	
Seeds of Sustainability: Lessons From the Birthplace of the Green Revolution in Agriculture	229
<i>Pamela A. Matson (ed.), reviewed by Ruth S. DeFries</i>	
Ecoliterate: How Educators are Cultivating Emotional, Social, and Ecological Intelligence	230
<i>Daniel Goleman, Lisa Bennett and Zenobia Barlow, reviewed by Rebecca Jordan</i>

Ecological Restoration (ISSN 1522-4740, E-ISSN 1543-4079) is published quarterly by the University of Wisconsin Press, 1930 Monroe Street, 3rd Floor, Madison, WI 53711-2059. Periodicals postage paid at Madison WI and at additional mailing offices.

Subscriptions: Individual (please pre-pay), \$68 print and electronic, \$58 electronic only; \$42 students; \$160 businesses and nongovernmental organizations; libraries and government agencies, \$257 print and electronic, \$227 electronic only. Non-U.S. subscribers please add \$35 for foreign shipping. All correspondence regarding subscriptions, advertising, and related matters should be sent to Journals Division, 1930 Monroe Street, 3rd Floor, Madison, WI 53711-2059, USA; www.wisc.edu/wisconsinpress/journals. Members of the Society for Ecological Restoration International receive *Ecological Restoration* at a discounted rate. Please visit our Web site at www.wisc.edu/wisconsinpress/journals for more information.

POSTMASTER: Send address changes to *Ecological Restoration*, 1930 Monroe Street, 3rd Floor, Madison, WI 53711-2059.

Editorial Staff

Editor: *Steven N. Handel*

Managing Editor: *Myla F.J. Aronson*

Book Review and Abstracts Editor: *Lea R. Johnson*

Rutgers, The State University of New Jersey,

School of Environmental and Biological Sciences: *Robert M. Goodman, Executive Dean*

Ecological Restoration is published quarterly by the University of Wisconsin Press. © by the Board of Regents of the University of Wisconsin System. No part of this publication may be reproduced without the written consent of the publisher, University of Wisconsin Press. Requests for permission to reprint an article or illustration should be made directly to UW Press, 1930 Monroe St, 3rd Floor, Madison, WI 53711-2059, permissions@uwpress.wisc.edu, <http://er.uwpress.org>.

 Printed on 30% recycled text paper.

Contributions are welcome. Authors should upload their materials through *Ecological Restoration's* submission website, which can be found at <http://er.uwpress.org>. Submission guidelines can be found at <http://uwpress.wisc.edu/journals/journals/er.html>.

Authorization to reproduce material from this journal, beyond one copy for personal use or that permitted by Sections 107 and 108 of U.S. Copyright Law, is granted for a fee. For fee schedule and payment information, contact www.copyright.com; The Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923, 978/750-8400, Fax: 978/750-4470.

Ecological Restoration is indexed in Elsevier BIOBASE, AGRICOLA, and in CSA's Ecology databases.

Ecological Restoration is affiliated with the Society for Ecological Restoration International, 285 W. 18th St. #1, Tucson, AZ 85701, 520/622-5485, <http://ser.org>. Members of the Society for Ecological Restoration International receive *Ecological Restoration* at a discounted rate. Please visit the UW Press Web site at www.wisc.edu/wisconsinpress/journals for more information.

Ecological Restoration was founded at the University of Wisconsin–Madison Arboretum.

Front Cover Feature: Grasslands are dynamic and major landscape features on all continents. In this special issue of *Ecological Restoration*, we have compiled a series of perspectives, reviews, research, and design articles to address the status, challenges, and success of grassland restoration in the United States. Late in his life, Vincent van Gogh created a series of grassland paintings from the south of France featuring the dynamic nature of these systems. Vincent van Gogh, *Landscape from Saint-Rémy*, 1889, Ny Carlsberg Glyptotek, Copenhagen, Denmark.

Back Cover Feature: Modern seed drilling equipment allows biodiverse seeds of different morphologies to be installed in grassland restorations. Different microhabitats within a project site can be seeded with specialized mixtures, allowing for diverse species composition and greater ecological function. Photo Credit: Christopher F. Miller, NRCS-USDA.

Submissions

We welcome submissions to *Ecological Restoration* from any part of the world. Submissions should relate to the restoration of plants, animals, ecological communities, or landscapes. We understand ecological restoration to be a multidisciplinary and diverse effort and welcome manuscripts considering ecological, and social aspects of restoration, as well as political, economic, legal, and regulatory issues, and other subjects related to ecological restoration. Relevant topics also include techniques and tools for planning, site preparation, species introduction, undesired species control, and monitoring. Manuscripts dealing with plant or animal community composition or general ecology must relate the work explicitly to ecological restoration practice and theory. Similarly, material dealing with reclamation or rehabilitation in a broader sense, or with restoration for economic purposes—economic forestry, range management, waste disposal—must be connected to ecological restoration.

Material may be submitted for the following categories (listed as they are encountered in the journal):

- Letters to the Editor
- Observations/Editorials/Commentary/Policy Reports
- Restoration Notes (shorter items describing project updates, new collaborations, events, innovative technologies, preliminary or unusual findings, thought-provoking concepts, imaginative solutions, etc.)
- Full-length feature articles on ecological restoration theory, practice, and research (case studies, research reports, photo essays, experiments, etc.)
- Book, journal, web, or movie reviews

Authors of full-length articles or reviews should submit their material online at <http://er.msubmit.net>. Manuscripts must be submitted with a cover letter stating that the material has not been previously published, and has not been submitted elsewhere and will not be until a final decision has been reached by the editor. Questions about the online submission site, or general inquiries may be emailed to ERjournal@aesop.rutgers.edu.

Review and Editing Process

Manuscripts are reviewed externally by experts in the field. The process requires approximately four to six months. Restoration Notes are reviewed and edited in-house unless additional expertise is required to evaluate the submission.

Style

Practitioners of ecological restoration are both a core audience and source of contributions to *ER*. Contributors should use a straightforward style free of unnecessary technical terms and jargon. We prefer the active voice (for example, “We measured three trees” instead of “Three trees were measured”). Please see our Submission Guidelines at <http://er.uwpress.org> for more information.

Tables, Photos, and Illustrations

Table and Figure captions should include useful and detailed information, and should be independent of the text. Figures will be reproduced in black and white in the print version of *Ecological Restoration* (usually requiring higher contrast) and can be reproduced in color in the online version. We use color photos on the front and back covers of the journal and welcome submissions of eye-catching, informative, high-quality photographs.

Page Charges

Payment of \$50 per page is requested from authors with research grant or other institutional funds available to underwrite publication costs. Invoices will be sent after composition of pages. Authors with no grant or institutional funds do not need to pay publication costs. Ability to pay page charges is not a condition for acceptance of a manuscript.
