Testing the Waters: New Approaches for Accelerating Restoration Actions

EDITORIAL

Zombie Urchins, Sea Otters, and the Hidden Reach of Restoration
Steven N. Handel

RESTORATION NOTES

Won't You Be My Neighbor? Short-term Versus Long-term Efficacy of Trait-based Neighbor Selection as a Restoration Tool in Harding Grass Old Fields
Elizabeth Weisgerber-Swanson, Miranda Sanders-Canestro, Christopher J. Lortie and Don Canestro

Synergistic Effects of Biochar and Hydrogel on Growth of Three Herbaceous Species Hydroseeded onto Gold Mine Tailings
Roudy Jean and Damase Phambu Khasa

Plant Community Recovery and Change Following Soil Transfer of a Forb-Dominated Meadow
Adam R. Warrix, Tessa M. Aby, Betsy Yankowiak and Jordan M. Marshall

Hemp Hulls Significantly Enhance Growth of the Native North American Shrub *Cephalanthus occidentalis* (Buttonbush) Rubiaceae
Bryan A. Connolly, Bryan S. Windmiller, Cara L. McElroy and Evan Prasky

Poplar Island: Understanding the Development of a Beneficial Use Restoration Site
Diann J. Prosser, Jeffery D. Sullivan, Jennifer L. Wall, Evan J. Buck, John J. Taylor, Carl R. Callahan and Peter C. McGowan

Drill-seeding Blue Oak Acorns: Testing the (Cost-)Effectiveness of a New Restoration Technique across Years and Microsites
Alex Palmerlee and Truman P. Young

Innovation in Restoration: Estimating Seed Counts Using a Photography App
Samantha Kelly, Cessair McKinney and Kerry M. Byrne

Locating the Responsive Plants for Landscape Recovery: A Toolkit for Designers and Planners
Xiwei Shen, Steven N. Handel, Niall G. Kirkwood, Yiwei Huang and Mary G. Padua

Ecological Restoration (ISSN 1522-4740, E-ISSN 1543-4079) is published quarterly by the University of Wisconsin Press, 728 State Street, Suite 443, Madison, WI 53706-1418. Periodicals postage paid at Madison WI and at additional mailing offices.

Subscriptions: Individual (please pre-pay), \$85 print and electronic, \$73 electronic only; \$43 students; \$218 businesses and nongovernmental organizations; libraries and government agencies, \$322 print and electronic, \$296 electronic only. Non-U.S. subscribers please add \$40 for foreign shipping. All correspondence regarding subscriptions, advertising, and related matters should be sent to Journals Division, 728 State Street, Suite 443, Madison, WI 53706-1418, USA; uwpress.wisc.edu/journals. Members of the Society for Ecological Restoration receive *Ecological Restoration* at a discounted rate.

Please visit our Web site at uwpress.wisc.edu/journals for more information.

POSTMASTER: Send address changes to *Ecological Restoration*, 728 State Street, Suite 443, Madison, WI 53706-1418.

Submissions

We welcome submissions to *Ecological Restoration* from any part of the world. Submissions should relate to the restoration of plants, animals, ecological communities, or landscapes. We understand ecological restoration to be a multidisciplinary and diverse effort and welcome manuscripts considering ecological, and social aspects of restoration, as well as political, economic, legal, and regulatory issues, and other subjects related to ecological restoration. Relevant topics also include techniques and tools for planning, site preparation, species introduction, undesired species control, and monitoring. Manuscripts dealing with plant or animal community composition or general ecology must relate the work explicitly to ecological restoration practice and theory. Similarly, material dealing with reclamation or rehabilitation in a broader sense, or with restoration for economic purposes—economic forestry, range management, waste disposal—must be connected to ecological restoration.

Material may be submitted for the following categories (listed as they are encountered in the Journal):

1. Perspectives
2. Restoration Notes (shorter items, < 1500 words describing project updates, events, innovative technologies, preliminary or unusual findings, thought-provoking concepts, imaginative solutions, commentary, policy reports, etc.)
3. Research articles or reviews on ecological restoration theory, experiments, socio-ecological linkages, education, restoration history, practice
4. Case studies (full length articles describing a particular restoration project or location and lesson learned)
5. Book, journal, website, or movie reviews

Authors of full-length articles or reviews should submit their material online at er.msubmit.net. Manuscripts must be submitted with a cover letter stating that the material has not been previously published, and has not been submitted elsewhere and will not be until a final decision has been reached by the editor. Questions about the online submission site, or general inquiries may be emailed to ERjournal@sebs.rutgers.edu.

Review and Editing Process

Manuscripts are reviewed externally by experts in the field. The process requires approximately four to six months. Restoration Notes are reviewed and edited in-house unless additional expertise is required to evaluate the submission.

Style

Practitioners of ecological restoration are both a core audience and source of contributions to *ER*. Contributors should use a straightforward style free of unnecessary technical terms and jargon. We prefer the active voice (for example, “We measured three trees” instead of “Three trees were measured”). Please see our Submission Guidelines at er.uwpress.org for more information.

Tables, Photos, and Illustrations

Table and Figure captions should include useful and detailed information, and should be independent of the text. Figures will be reproduced in black and white in the print version of *Ecological Restoration* (usually requiring higher contrast) and can be reproduced in color in the online version. We use color photos on the front and back covers of the journal and welcome submissions of eye-catching, informative, high-quality photographs.

Page Charges

Payment of \$50 per page is requested from authors with research grant or other institutional funds available to underwrite publication costs. Invoices will be sent after composition of pages. Authors with no grant or institutional funds do not need to pay publication costs. Ability to pay page charges is not a condition for acceptance of a manuscript.
